02 · WHO WE ARE

One company for print, paper and coating.

Art & Graphics (Pvt) Ltd. is a Lahore-based printing and general order supply company. We bring offset and digital printing, in-house finishing, paper supply and, through our group company Coating Impex, paper coating and converting, together at our own premises.

Design, printing, lamination, binding, cutting and packaging all happen under one roof, so a job moves from artwork to delivery without leaving our control.

Offset printing

Sheet-fed and web offset for books, forms, utility bills and publications.

Digital printing

Short-run, variable-data and same-day work on production digital presses.

Paper and coating

Paper supply, converting and coating through our group company Coating Impex.

WHAT WE DO

- **Offset and rotary printing**
  Books, forms and commercial work.
- **Digital and variable data**
  Short runs and urgent jobs.
- **Pre-press, scanning, e-marking**
  Design, scanning and on-screen marking.
- **Finishing and binding**
  Cutting, folding, lamination, binding.
- **Paper and general supply**
  Paper and stationery, supplied to order.
- **Computer stationery**
  Continuous forms and thermal rolls.
- **Coating and converting**
  Sublimation, thermal and board coating.
- **Packaging**
  Folding cartons and boxes.

HEAD OFFICE

28/45 Chattergee Road, Behind G.C. University, Urdu Bazar, Lahore.

PRODUCTION & WAREHOUSING

5-Al-Jannat Road, Nain Sukh, Saggian, Lahore.

03 · PRINTING & FINISHING

From artwork to finished product, in one place.

Offset is our foundation and digital is our fast lane. Pre-press, finishing and packing sit beside both, so every job has one owner from proof to dispatch.

1 Design — 2 Pre-press — 3 Print — 4 Finish — 5 Quality check — 6 Deliver

Offset printing

- Sheet to sheet printing
- Reel to sheet and reel to fold
- 8 and 10 colour presses
- Books, forms, utility bills, reports

Digital printing

- High-resolution colour and mono
- Same-day and urgent jobs
- Variable data, serials, barcodes, QR
- Short runs, prototypes and samples

Pre-press and scanning

- Design and layout support
- Document, photo and archive scanning
- In-house CTP and plate making
- Print-ready PDF preparation

Finishing and binding

- Precision cutting and folding
- Glue and perfect binding
- Latest automatic lamination machines
- Counting, packing and dispatch

PUBLISHING AND SCANNING

Publishing and e-marking

We publish books, reports and journals, and offer e-marking, on-screen marking and scanning.

- E-marking and on-screen marking
- High-speed document and exam OMR scanning
- Searchable digital copies
- Records digitisation for archives

04 · OUR PROCESS

Every stage in-house, every stage checked.

From the first sketch to the final carton, one team owns your job. You approve a proof before we print, and we check the result against it.

1 Design

Concept, layout and artwork by our design team, or we work from your files.

2 Pre-press

File checking, imposition and trapping, then in-house CTP and plate making.

3 Proofing

Digital and press proofs for your approval before a single sheet is run.

4 Colour correction

Colour matching and correction against your approved proof and brand colours.

5 Printing

Sheet to sheet, reel to sheet and reel to fold on 8 and 10 colour presses, plus digital.

6 Post-press

Cutting, folding, automatic lamination, coating, binding and packing.

7 Quality control

Every job inspected against the approved proof, counted and checked.

8 Delivery

Delivered by our own transport and delivery service, with records kept.

BUILT INTO THE PROCESS

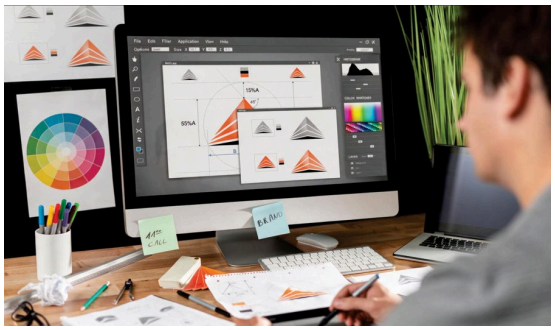

Modern technology at every stage.

- Variable data
- 8 and 10 colour presses
- In-house CTP
- Automatic lamination
- AI in process
- Own transport

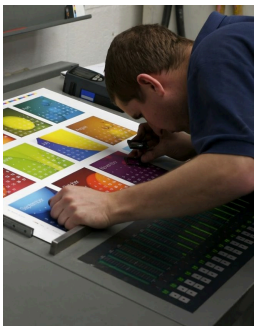

05 · INSIDE OUR PLANT

Where your job is made.

Design, proofing, printing, finishing, coating and storage, all at our own premises in Lahore.

Design and pre-press

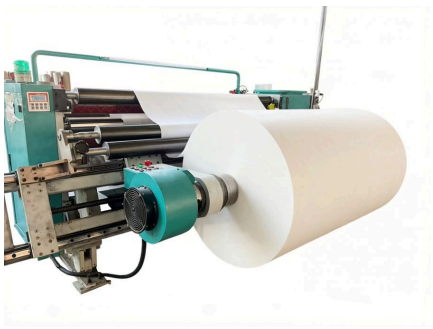

Proofing and colour checks

Multi-colour offset printing

Folding and binding

Coating and converting

Paper and finished-goods storage

06 · PAPER & STATIONERY

Paper, supplied and converted to order.

We source paper and industrial materials from international mills and supply printers, institutions and industry, cut, rewound and packed to your specification.

Reels

Sheets and reams

Continuous forms

Thermal and NCR rolls

Paper import and trading	Printing and writing paper, board and industrial materials, imported directly from the world's leading paper and board mills, and supplied in reels, sheets and reams. Through our group company Abdullah Traders: A3, A4 and legal sizes, local and imported, in brands including BLC, AA, IK, Copymate, Silk and Aria.
General order supply	Stationery, printed and branded material and general items for government, semi-government and private buyers, supplied to specification.
Converting	Jumbo roll to sheet or smaller reel, custom-width slitting, rewinding, core replacement, counting, ream packing and shrink-wrapping for office, copier, craft and coloured paper.
Computer stationery	Endless fan-fold computer forms, carbonless (NCR) sets, calculator, fax and thermal rolls, plus A4 and legal cut-size paper.
Storage and continuity	Dedicated warehousing for raw material and finished goods. Hybrid solar paired with generators keeps production and dispatch running with zero downtime.

OUR SUPPLY STANDARD

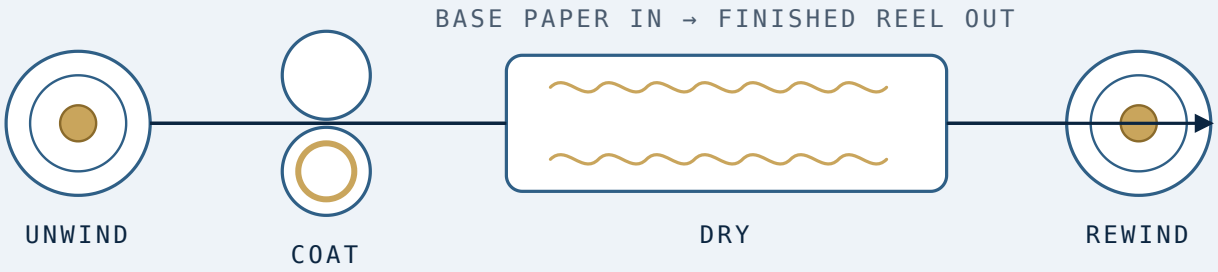

Counted, labelled and packed right.

- Accurate dimensions
- Smooth winding
- Clean edge finishing
- Consistent standards

07 · COATING & CONVERTING

Coating and converting, through Coating Impex.

Our group company Coating Impex coats and converts paper, board and film, from base paper to finished reel.

Sublimation paper

Regular 30, 52 and 68 gsm; other grammages coated to order.

Thermal paper

Thermally coated rolls for point-of-sale and tickets.

Coloured paper

Colour-coated paper in jumbo rolls and ream-packed sheets.

Folding box board

One-side pigment-coated board for cartons and packaging.

Kraft and backing paper

Kraft and backing grades, slit and rewound to your widths.

Film and label rewinding

Film, label stock and self-adhesive rolls rewound and slit.

PRINT-FINISHING COATINGS

Aqueous | **Gloss** | **Matte** | **UV** | **Spot UV**

Protective and decorative finishes that add shine, scratch resistance and a premium feel to printed work.

08 · TENDERS & SUPPLY ORDERS

Built for tenders and supply orders.

Government and institutional buyers need more than good printing. They need documents in order, samples approved, deliveries inspected and records kept. We run every supply order that way.

1. **Tender review**
   We study the specification, quantities, delivery and inspection terms, then cost the job to the standard asked for.
2. **Samples and approval**
   Samples and proofs are matched to the specification before production begins.
3. **Production under control**
   Printing, finishing and counting with quality checks at each stage.
4. **Joint inspection**
   We prepare the inspection papers and host the client's team before dispatch.
5. **Delivery and follow-up**
   Delivered by our own transport, with challans, invoices and delivery records kept until the order is closed.

TENDER-READY FILE

- ✓ Company incorporation (SECP)
- ✓ FBR sales tax and national tax registration
- ✓ Professional tax certificate
- ✓ Press declaration, Government Printing Press
- ✓ ISO 9001, 27001 and 45001 certificates
- ✓ Experience record and client list
- ✓ Specification compliance sheets
- ✓ Joint-inspection paperwork

SECURITY AND VARIABLE-DATA PRINTING

Forms and documents you can trace.

Serial numbering, barcodes and QR codes, produced and handled in strict confidence.

Our ISO 27001 information security system protects client data and documents from file receipt to final delivery.

09 · CLIENTS

Trusted by institutions across Pakistan.

A selection of the organisations we have served. A fuller list, with references, is available on request.

REGULAR WORK

- Utility bills for all DISCOs
- Books for PECTA, the KPK Textbook Board and the National Book Foundation
- Answer books for all educational boards

10 · QUALITY & WHY US

Certified systems, dependable delivery.

Three international management standards sit behind our daily work, so quality, information security and workplace safety are managed, audited and recorded.

QUALITY

ISO 9001:2015

Quality management: consistent processes, checks at every stage and continual improvement.

INFORMATION SECURITY

ISO 27001:2022

Client files, data and documents protected from receipt to delivery.

HEALTH & SAFETY

ISO 45001:2018

Occupational health and safety: a safe workplace for our people and your work.

WHY CHOOSE US

01 **Quality assurance**
Proofs, press checks and final inspection before anything leaves.

02 **Modern technology**
In-house CTP and plate making, automatic lamination and AI built into our processes.

03 **Experienced team**
Skilled operators, designers and supervisors with years in the trade.

04 **Sustainable press, zero downtime**
A leading hybrid solar system in the printing industry, paired with generators, so deadlines are never lost to power cuts.

05 **Competitive pricing**
In-house printing, paper and coating keep costs fair and clear.

06 **Client confidentiality**
Your files, data and designs are handled in strict confidence.

INDUSTRIES WE SERVE

One supplier for institutions, industry and trade.

Government · Power utilities · Education · Healthcare · Banking · Packaging · Textile · Corporate

11 · SUSTAINABLE PRESS

A press powered by the sun.

One hybrid system joins the sun, battery storage, heavy-duty generators and the grid, under strict environmental control, so our presses never stop.

OUR HEADLINE

A leading hybrid solar system in the printing industry.

Solar, battery, state-of-the-art generators and the grid work together as one system, so printing never waits for power.

Zero downtime

Every source backs up the others, so presses, coating lines and dispatch keep running even when the grid fails.

Hybrid by design

Solis hybrid solar and storage, Perkins heavy-duty generators and the grid share the load, so no single source carries everything.

Cleaner energy

Solar covers daytime production, and the whole system runs under strict environmental control.

SUSTAINABLE BY PRACTICE

- **Water-based coatings**
  Aqueous finishes for printed work.
- **Checked at every stage**
  Quality checks that reduce rework and waste.
- **Digital records**
  Scanning and e-marking that cut printing and storage.
- **Efficient automation**
  Smarter workflows to save time and material.

12 · LOOKING AHEAD

Growing with our clients, here and abroad.

Our plans follow what our clients need next: more digital capability, more packaging, cleaner and more automated production, and wider reach.

01	Digital expansion	Short-run, variable-data and on-demand printing, with online ordering and file submission to make repeat work simple.
02	Packaging clients	Cartons and folding-box work, supported by coated board from our group company and print finishing in-house.
03	Eco-friendly technology and automation	Water-based coatings, lower waste and more automated workflows to raise consistency and cut turnaround.
04	Pakistan-wide reach	Dependable dispatch to every province, so institutional and corporate clients are served wherever they are.
05	International trade partnerships	Paper and material sourcing from overseas mills, and supply and printing partnerships with buyers abroad.

OUR LONGER VISION

From Lahore to new markets in Africa and beyond.

We aim to build lasting partnerships, including in Rwanda, bringing Pakistani printing, paper and coating capability to growing export markets, with the same certified quality we offer at home.

13 · OUR GROUP

Three companies, one standard.

Art & Graphics works with three group companies, so paper, coating and Quran printing are handled with the same quality and care.

GROUP COMPANY 01

Coating Impex

Coating and converting: sublimation, thermal, coloured paper and box board, with slitting and rewinding.
